

**A**

### Post-training change in partial correlation

(toolmaking performance x AQ of AF GM terminations)

→ Decrease → Increase → NA

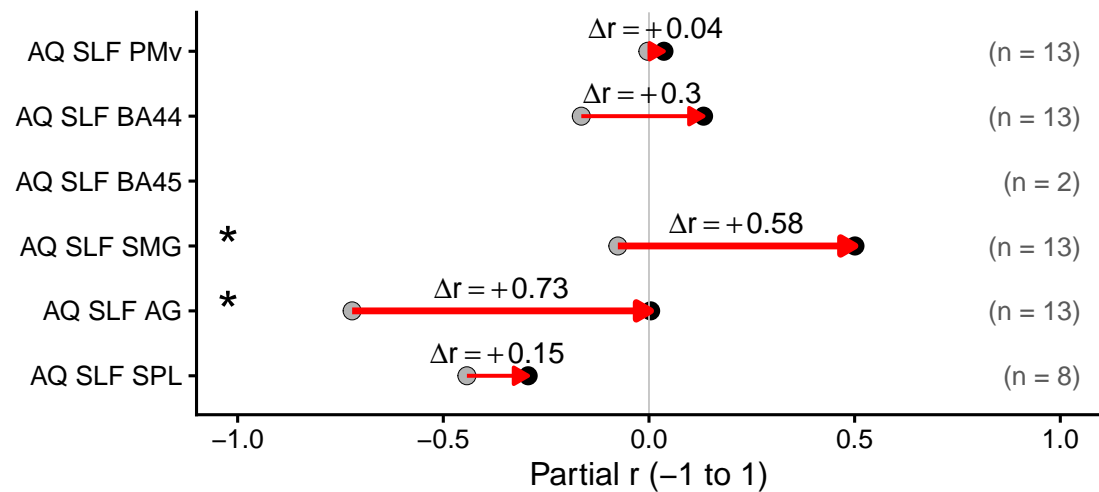

**B**

### Post-training change in partial correlation

(toolmaking performance x AQ of SLF II/III GM terminations)

→ Increase → NA

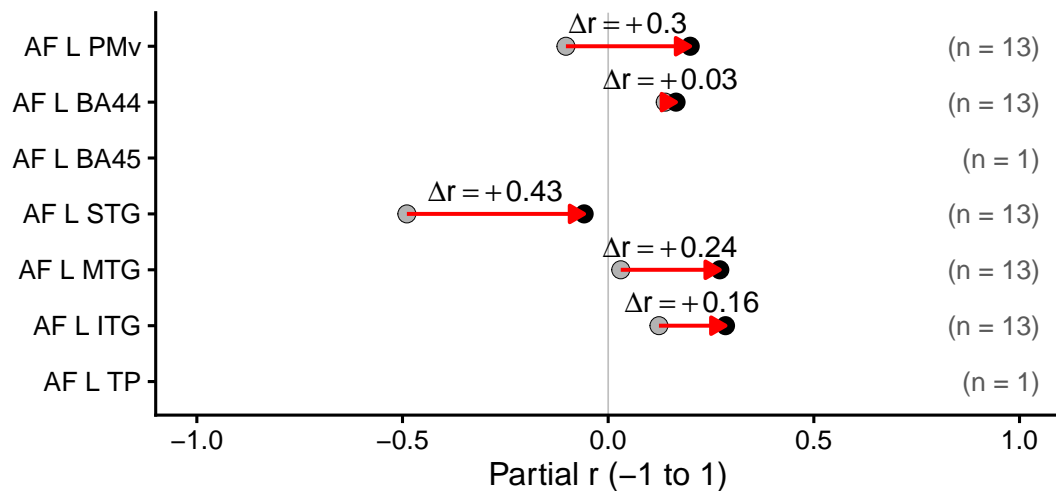

**C**

### Post-training change in partial correlation

(toolmaking performance x left AF GM terminations)

→ Increase → NA

**D**

### Post-training change in partial correlation

(toolmaking performance x right AF GM terminations)

→ Increase → NA
